Unexpected Abstractions showcases the work of artists **Steven Sylvester, Tere Pastoriza, and David McLeish**. Each artist explores the balance between delicacy and strength as they examine the concept of balance and serenity.

Mr. Sylvester is an acclaimed contemporary clay artist driven by an appreciation for uncommon uses of materials. His current work-in-progress series of life size women's dresses made from clay and wire amplify his desire to transform ordinary objects into something remarkable. In conjunction with the series of dresses on display at Studio 18, Mr. Sylvester will present the work of his impassioned project Help Me Build a Home of My Own. Hand built homes created by children aged out of the foster care system will be on display for the duration of the exhibit. Proceeds from the sale of the houses will be donated to the foundation Sculpting Lives. Please forward this newsletter to your friends and post it on your social networking sites.
